Letters to the Editor

Attention, Congress

To the Editor:

Curiosity killed a cat, 'tis said, but recent curiosity by an Ohio Congressman may contribute to the longevity of the United States.

Nothing should seem incredible any more but the following information comes close to the impossible:

A reprint from "America's Future" in the May 21 Wanderer discloses that a series of articles by a reporter, Guy Williams, appeared in the New York Journal-American describing the defection to the U.S. by a Lt. Col. Goleniewski of the Soviet Secret Police. Any defection from the Soviets is important, but an officer of the Secret Police — impossible!

But it happened, according to Williams, and Goleniewski has given alarming information to our government but the information is being suppressed. Only when Congressman Michael Fieghan became curious about a bill introduced to grant Goleniewski U.S. citizenship and met the Soviet defector did the story come out. Now please sit down before reading on.

Williams' Journal - American articles claim the following: Three American scientists with access to our defense secrets are working for the Soviet secret police.

That the Soviet secret police have agents in both the State Department and Central Intelligence Agency.

That Soviet secret police have infiltrated every American Embassy in important cities around the world and every US agency except the FBI.

That over one million dollars

of CIA funds got into the hands of the Reds and was divided among the Soviet secret police, the Italian Communist Party and the Communist Party in the U.S.

That an American diplomat, who had been a Soviet agent for 16 years, when discovered in 1961 by the CIA and State Dept. was permitted to resign and disappear abroad.

The article notes there is only one way to determine the truth or falsity of the above information and that is for Congress to investigate immediately by interrogating Goleniewski. He allegedly met with frustration when he tried to reveal this information before.

According to Williams, there is already a defensive attempt by some officials to question Goleniewski's "mental condition," a favorite trick by those who wish to silence evidence about traitors and subversives.

It brings to mind the futile attempts by the Danish UN official, Bang-Jensen, to act as intermediary for several Soviet UN officials who wished to defect to the U.S. We simply were not interested!

All Congressmen and Senators should be urged to investigate immediately and see if there is any truth in the allegations. In view of the treatment given Chief Security Officer Otto Otepka for revealing breaches in security regulations in the State Dept. it is not hard to imagine some or all of it may be true.
